

Self Leadership

Empower Everyone to Take Control of Their Own Success

If your people don't reach their full potential, neither will your organization.

Imagine how resilient your organization could be if it were filled with people who have the skills and self-confidence to get what they need without unnecessary guidance or wasted time.

Organizations don't execute well when individual contributors aren't taking the initiative or being as effective as possible. Performance is often stalled because employees don't know how to ask for what they need when needed. The truth is that people want to be engaged, make meaningful contributions, and feel appreciated.

We know how important it is to the success of your organization that every person be empowered and committed to achieving results. Our Self Leadership training program was designed by experts in employee motivation and engagement to ensure your team members develop the self-starting mindset they need to move the organization forward.

When you arm individuals at all levels with the Self Leadership mindset and skillset, you build an empowered workforce that is productive, innovative, and passionate about their work.

Outcomes

Accelerate
Development

Drive Personal
Accountability

Improve Autonomy
and Performance

Increase
Innovation

Self Leadership

Suitable for:

- Individual contributors, managers, and senior leaders seeking to be more productive and satisfied at work
- Anyone who reports to managers trained in SLII®

“Increase Your Potential.”

MINDSET OF A SELF LEADER

Self Leadership

Learning Objectives:

- Be equipped with the right mindset and skillset needed to become proactive self-starters who know how to ask for direction and support, solicit feedback, and pitch solutions
- To have a common language for discussing about self development and performance, to have more effective conversations and build more trusting, open relationships with managers

Value Proposition:

- Blanchard’s **Self Leadership** program builds on the world’s most widely taught leadership model, **SLII®**, and integrates the latest research on the proactive skills required for individuals to be more effective.
